POKER NIGHT · REDESIGN · FULL APP, FLOW-WISE

The whole app, in its own theme

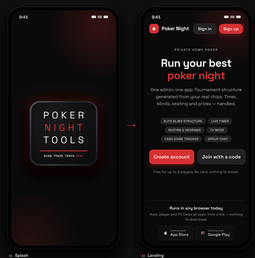
Rebuilt on the theme defined in your code: the **#0A0A0A** ground, the **#DB3030** crimson accent, **Space Grotesk** everywhere with tabular, slashed-zero numerals, ~10px cards and the glass bottom-nav. The live clock uses the **TV-scoreboard timer** from `TournamentDisplayClock` — red level, mono digits with crimson seconds, 25/475/25 and the red progress bar.

Laid out **flow-wise**: each row is a user journey, read left → right along the crimson arrows. Pan the canvas to follow a flow.

A Onboarding & access

First contact and every way in — the boot splash, marketing landing, the sign-in/registration path, and the two frictionless guest, join-by-code and group-invite routes.

splash → landing → sign in → register · guest → code → group

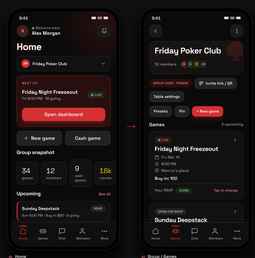


01 Splash · 02 Landing · 03 Login · 04 Register · 05 Forgot password · 06 Guest flow · 07 Join by code · 08 Join group

B Group hub

The logged-in home base. Bottom nav mirrors the code: Home · Games · Chat · Members · More, with the crimson active underline and glow.

home → group → members → chat → polls → alerts → history

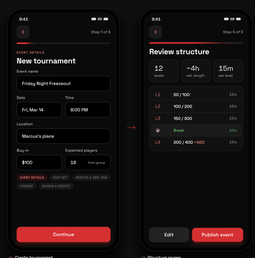


08 Home · 09 Group / Games · 10 Members · 11 Chat · 12 Polls · 13 Notifications · 14 History

C Host a tournament

The full arc of a tournament night. The live dashboard uses the code's TV-scoreboard clock — red "LEVEL", mono digits with crimson seconds, SB · ANTE · BB and the red progress bar.

create → structure → invite → check-in → live → settle → final table → complete → podium

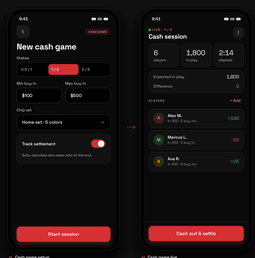


15 Create tournament · 16 Structure review · 17 Invitation · 18 Check-in · 19 Admin dashboard The scoreboard timer · 20 Rebuy settlement · 21 Final table · 22 Complete tournament · 23 Result podium · 24 Player live read-only, scoreboard timer

D Cash game & TV

Ring-game tracking and the room's TV display — the same scoreboard clock scaled up for the wall.

setup → live ledger · big-screen display

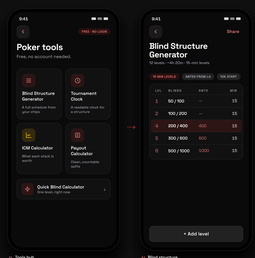


25 Cash game setup · 26 Cash game live · 27 TV mode TournamentDisplayClock.tsx

E Public tools

The free, no-login calculators. The standalone clock reuses the scoreboard timer.

hub → blinds · stack · ICM · payouts · quick blind

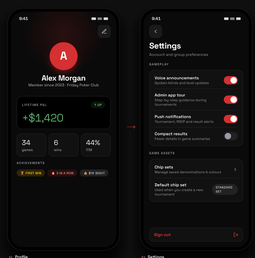


28 Tools hub · 29 Blind structure · 30 Tournament clock scoreboard timer · 31 ICM calculator · 32 Payouts · 33 Quick blind

F Account

The player's own space and the hosting tools that speed up setup.

profile → settings → stats → chip sets → edit → presets

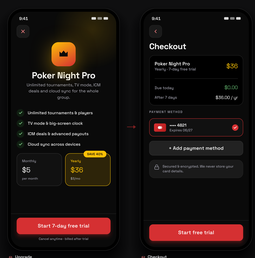


34 Profile · 35 Settings · 36 Stats · 37 Chip sets · 38 Edit chip set · 39 Presets

G Premium

The upgrade path. Gold marks the value, crimson closes the deal.

upgrade → checkout

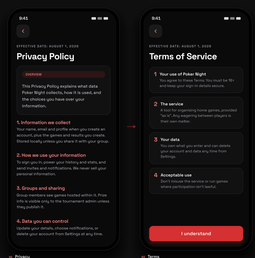


40 Upgrade · 41 Checkout

H Legal & support

The quiet-but-necessary pages, set as calm long-form on the same dark ground.

privacy · terms · support



42 Privacy · 43 Terms · 44 Support
